Professional Summary

Computer Science graduate with a strong academic foundation and practical experience in programming and data science. Gained hands-on experience through a graduation project and multiple specialized courses in Artificial Intelligence and Python. Skilled in Generative AI, applying AI models to create innovative solutions, and proficient with AI libraries such as NumPy, Pandas, scikit-learn, and TensorFlow. Experienced in Microsoft Office tools for reporting, presentations, and digital research, as well as problem analysis and solution design. Seeking to apply academic knowledge and technical expertise to contribute to advanced digital solutions while continuing professional growth in the field of Artificial Intelligence.

Career Objective

Seeking to join a technology-driven organization that provides opportunities to apply academic knowledge, leverage technical expertise in Python programming, Generative AI, Large Language Models (LLMs), and data analysis, and contribute to innovative digital solutions while continuing professional growth in the field of Artificial Intelligence.

Experience

Generative AI Program | Saudi Digital Academy | October 2025

- **Prompt Engineering:** Designing effective prompts for Large Language Models (LLMs).
- **Multi-Agent Systems (LangChain & CrewAI):** Building intelligent AI workflows.
- **Interactive AI Applications (Gradio & Streamlit):** Developing user-friendly AI applications.
- **Vector Databases & RAG:** Enhancing information retrieval and context-aware responses.
- **Ethical AI & Real-World Applications:** Applying responsible AI practices.

Education

Bachelor of Computer Science | Northern Border University | 2025

- GPA: 4.70 out of 5 | Second Honors

Training Courses

- Fundamentals of Artificial Intelligence | SDAIA | August 2025
- Programming with Python | Northern Border University | August 2025
- Prerequisite Courses in Artificial Intelligence – Python Basics | Coursera | November 2025
- Artificial Intelligence Fundamentals (Guided Learning with Capstone) | IBM SkillsBuild | June 2025
- Multiple training courses in programming and technology | Satr Platform

Projects

Website Development (Graduation Project) | 2025

- Developed a functional website as part of graduation requirements.
- Applied principles of web programming and database management.
- Designed an interactive user interface focusing on usability and user experience.

Volunteer Work

- **Saudi Red Crescent Authority | Volunteer | June 2025**

Skills

Personal Skills

- Teamwork and collaboration | Time management | Flexibility | Fast learner | Attention to detail | Basic problem-solving | Decision-making

Professional Skills

- Report writing | Digital research | Technical problem analysis | Continuous learning | Academic task management

Technical Skills

- Python programming | Generative AI | Large Language Models (LLMs) | Machine Learning | Neural Networks | Data Processing & Analysis | AI Libraries: NumPy, Pandas, scikit-learn, TensorFlow | Microsoft Office | SQL basics | Computer literacy

Languages

- **Arabic:** Native
- **English:** Native
